found

Weight loss driven by your biology

Welcome to Found–a comprehensive virtual weight loss program tailored to the factors that make you unique. We call this "weight care."

Found has served over 250,000 members in the U.S., helping them on their journey to safe, effective, lasting weight loss.

Feel like you've tried everything?

At Found, we connect you with providers trained in obesity medicine to deliver treatment plans based on your body, not willpower.

Did you know:

Only 1% of all doctors are actually trained to treat people with obesity and excess weight?1

A dedicated Care Team at your fingertips

Access to expert 1:1 care

We partner with the foremost experts in obesity medicine to design treatments that work with your body—not against it.

Personalized treatment

Gain access to a treatment plan tailored to your biology, your medical history, and your lifestyle.

Unparalleled support

Knowledgeable health coaches and your fellow Found members provide motivation to ensure you never walk alone.

Member stories

Julie Watkins, lost 75 pounds**

"Everybody is different and we all respond differently to medications, diets, and other factors—which is why Found gives multiple weight loss options. This program works for so many people because it encourages you to do your part and work for it."

Xavier Cordova-Figallo, lost 23 pounds**

"One of the life-changing things I learned was about eating mindfully. Found changed my habits of how I see food and how I see myself interacting around it."

In 1 year, Found users lost an average of 12% body weight. Results based on data from 1,773 users who reported their weight at least 1 time/week on avg. for 1 year. Prescriptions are up to a medical provider's discretion.
